LinkedIn: [linkedin.com/in/arjun-porwal](https://www.linkedin.com/in/arjun-porwal)
GitHub : github.com/Arjunporwal13

Email : arjunporwal2005@gmail.com
Mobile : +91-9899675190

SKILLS

Languages	: Python, Java, C++, C
Frontend	: HTML, CSS, JavaScript
Backend & APIs	: Node.js, Express.js, FastAPI, Flask, REST APIs, Socket.IO
Databases	: PostgreSQL, MongoDB
AI & Machine Learning	: Scikit-learn, XGBoost, Pandas, NumPy, Matplotlib, Machine Learning Fundamentals
Developer Tools & Methodologies	: Git, GitHub, Jira, Selenium, Agile
Core CS	: Data Structures & Algorithms, Object-Oriented Programming
Soft Skills	: Leadership, Team Collaboration, Adaptability, Continuous Learning

PROJECTS

StudySync - Full-Stack Student Productivity Platform GitHub	Present
- Engineered a full-stack student productivity platform integrating authentication, calendar-based task management, real-time collaboration, and an AI study assistant. - Implemented REST APIs with session-based authentication, PostgreSQL persistence, Socket.IO real-time messaging, and OpenAI-powered conversational assistance for academic queries and study planning. - Enabled users to manage personalized schedules, collaborate through live chat, and receive context-aware AI assistance within a unified web application. - Powered the application with Node.js, Express.js, PostgreSQL, Socket.IO, OpenAI API, JavaScript, HTML, and CSS.	
DengueAI - Dengue Diagnosis System Machine Learning GitHub	May 2026
- Architected an end-to-end machine learning application that predicts dengue risk from clinical blood parameters through a web-based assessment interface. - Applied data preprocessing, KNN imputation, feature selection, stratified validation, model comparison, and feature-importance analysis across Logistic Regression, Random Forest, and Gradient Boosting models. - Achieved 98.99% held-out test accuracy with 99.25% precision, recall, and F1-score while maintaining a 0.13% train-test gap after removing leakage-prone and low-information features. - Integrated Scikit-learn, XGBoost, Pandas, NumPy, FastAPI, React, JavaScript, and Joblib into a deployable full-stack ML pipeline.	

TRAINING

Data Structures & Algorithms using Java LPU Certificate	Jun 2026 - Jul 2026
- Solved 200 LeetCode problems using Java, applying data structures and algorithms including arrays, linked lists, stacks, queues, trees, graphs, hashing, sorting, and searching. - Leveraged the Java Collections Framework and built-in data structures to develop efficient solutions and optimize time and space complexity. - Applied systematic problem-solving techniques to analyze constraints, select appropriate data structures, and design optimized algorithmic solutions.	

CERTIFICATES

Infosys Springboard - Database Management System Part - 1 Wingspan Certificate	Jul 2026
Programming in Java iamneo LPU Certificate	May 2026
Data Structures & Alogorithm iamneo LPU Certificate	Jan 2026
Infosys Springboard - Programming Using C++ Wingspan Certificate	Aug 2025
GenAI Fundamentals Disha Certificate	Jun 2025

ACHIEVEMENTS

Solved 200 problems on LeetCode and earned a 50-Day Coding Badge for consistent problem-solving.	Aug 2026
Participated in the Build-a-Thon 2.0 Hackathon Board Infinity Certificate	Apr 2025

EDUCATION

Lovely Professional University	Punjab, India
Bachelor of Technology in Computer Science and Engineering(AI & ML); CGPA - 8.83	Aug 2024 - Present
Hans Raj Model School	Punjabi Bagh, New Delhi
Intermediate - 70.4%	Mar 2022 - Mar 2023
Hans Raj Model School	Punjabi Bagh, New Delhi
Matriculation - 76.20%	Mar 2020 - Mar 2021
